

# **ENR145 Prelabs #1**

Due: 1<sup>st</sup> of class in week 2 (aka Monday afternoon or Tuesday morning)

- 1) Create a Github account with your Coe.edu email address:

<https://github.com/>

Try to join Coe-College organization:

<https://github.com/Coe-College>

(If you can't, no worries).

- 2) Knows how to log into google Colab with your Coe.edu account, get the Pro subscription for free, and create a file (e.g., in your drive) to start coding.

If you have any trouble, find help, talk to me, or google Colab tutorial.

2.1) When you are done, try write a code to say “hello world”.

2.2) And convert numbers between binary, decimal and hexadecimal.
